

# Job Shadowing Venezuela

Week Four

**Monday 29 April 2013**

On Monday the Job Shadowers had an Institutional Visit to Grupo Social CESAP and Opción Venezuela.

Grupo Social CESAP is an organization committed to the People's Action, for more than 38 years they have been promoting the construction of an inclusive, fair and equitable society, encouraging grassroots participation as actors and authors of social transformation. Their actions and programs cover many aspects in the life of individuals and communities. Many times, they start with a specific problem to promote training and organizational processes which are then consolidated and beyond, allowing other people to achieve success in transforming their reality.

Opción Venezuela is a civil apolitical nonprofit association, a pioneer and leader in promoting Social Responsibility talented in collaboration with college students.

During their visit they had the opportunity to do a Round Table with representatives and volunteers from both organizations

**Tuesday 30 April 2013**

**Wednesday 01 May 2013**

National Holiday

**Thursday 02 May 2013**

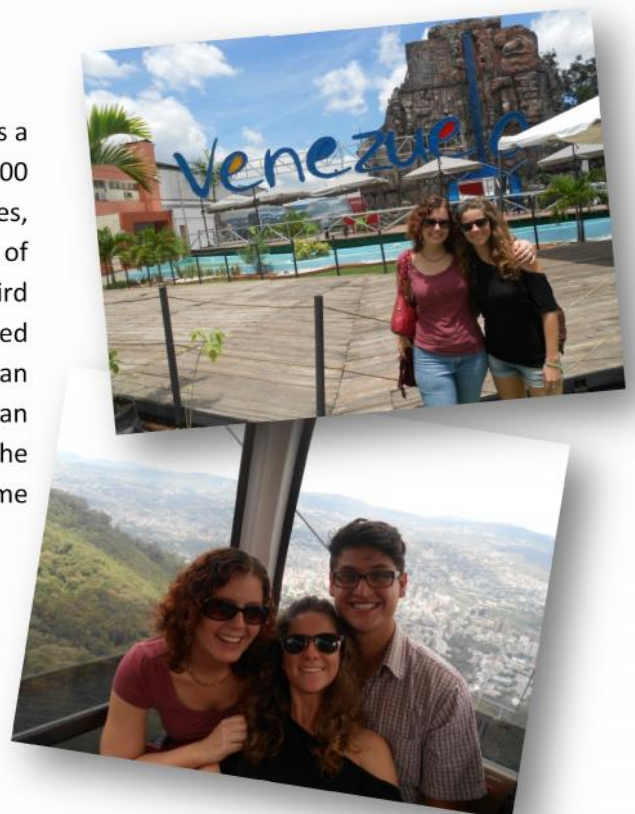

On Thursday Job Shadower from Spain Lucía Gomez dedicated some time to advance in the Country Report and in the afternoon had a Cultural Tour to Parque del Este and visited the Caracas Reading Fair in Altamira

**Friday 03 May 2013**

Friday morning was dedicated to prepare a workshop for teachers at the Luis Castro School. The workshop focuses on how to encourage self esteem among young learners and elementary school students.

**Saturday 04 May 2013**

Cultural Visit to Parque Nacional el Avila. This park has a high diversity of fauna and flora. More than 100 butterfly species, approximately 120 mammal species, 20 amphibians, 30 reptiles and 500 bird species (36% of Venezuela avifauna) have been documented. Nine bird species are endemic to Venezuela and three threatened bird species live in this park. In addition, more than 1,800 plant species from diverse taxonomic groups can be observed. Several of these plants are endemic to the Cordillera de la Costa mountain range with some endemic to the park itself.

**Sunday 05 May 2013**

Free
